

1. For <p id="mission">

- List all rules that apply to its color.
ID, class, p.
- What is the final color, and why?

The final color is the orange one because is an ID the one who is more important on this one.

2. For <p id="team">

- List all rules that apply to its color.
Inline, ID, class, p.
- What is the final color, and why?

The final color is darkblue because is in an inline style without ID or style bracket.

3. For <p id="experience">

- List all rules that apply to its color.
Id father, id, class, p.
- What is the final color, and why?

The final color is green because is his father has an id with p:last-child with that color, the father is more important than the child.

4. For <p id="services-intro">

- List all rules that apply to its color.
Last Class, class, p.
- What is the final color, and why?

The final color is blue because the class is more important than the main css bracket of p.

5. For <p id="offer">

- List all rules that apply to its color.
!important, ,inline, id, class, p
- What is the final color, and why?

The final color is darkgreen because it has !important on css, so that means that is going to be the final color no matters the other options.
